

## BUD'S TIRE AND WHEEL INC.

8651 INDIANA AVE., #F. RIVERSIDE, CA 92504. 951/351.1319

December 4, 2008

At Bud's Tires & Wheels we keep all of our equipment updated. About 18 months ago the new Smart Weight software was installed in the Hunter GSP9700 Roadforce Balancer. Since then we have seen an improvement in production with over two-thirds of the wheels needing only one wheel weight, which represents an average savings of 41.9%. This adds up to over 1200 pounds in lead weight savings.

I highly recommend Hunter's products and Smart Weight technology. It has been a very effective product in improving customer satisfaction as well as being cost efficient, benefiting both our customers and ourselves.

Sincerely,

Bud Luppino  
Owner/President  
Tire Pros
